

NIT PRODUCTS 4
Kids

DELIGHTFULLY
NATURAL
NATURAL &
ORGANIC

Delightfully Natural Nit products were formulated by using natural and organic ingredients with the aim to manage and relieve head lice and their eggs, without using harmful chemicals on children's hair.

Being a hairdresser with over 15 years experience I have noticed an alarming rise of nits in school age children. In the past the only way of treating this problem was by using harmful chemicals. Therefore my aim was to formulate a chemical free and pleasant smelling product that controls head lice infestation and aids in the removal of head lice and their eggs. It also acts as a moisturizing treatment leaving your child's hair feeling soft and shiny.

Our children are precious and why would we choose a product that comes with warnings when you can use a product that is safe and natural.

Delightfully Natural Nit products 4 kids:

Nit Shampoo

Nit Conditioner

Nit Shampoo and Conditioner are designed to aid and control nits from coming back, as the natural aromas of the product help repel the nits.

SHAMPOO INGREDIENTS

purified water, sodium salt (coconut derived), coco-betaine (coconut derived), coco glucoside (coconut derived), polysorbate 20 (vegetable derived), safflower oil, vitamin E, vitamin B, lactic acid, essential oil blend of rosemary, lavender, eucalyptus and geranium, sodium hydroxymethylglycinate (natural preservative).

CONDITIONER INGREDIENTS

purified water, cetearyl alcohol (coconut derived), dipalmetoylethyl hydroxyethylmonium methosulfate (natural detangler derived from palm oil), ceteareth-20 (coconut derived), vegetable glycerin, helianthus seed oil, vitamin E, silk protein, vitamin B, sorbic acid (fruit derived), lecithin, coconut oil, organic jojoba oil, shea butter, essential oil blend of rosemary, lavender, eucalyptus and geranium, methyl parahydroxybenzoate (food grade preservative)

Leave in Lice Spray

Leave in lice spray is designed to detangle, help to remove nasty knots, with the added bonus of helping to control head lice.

LEAVE IN LICE SPRAY INGREDIENTS purified water, cetearyl alcohol (coconut derived), dipalmetoylethyl hydroxy-ethylmonium methosulfate (natural detangler derived from palm oil), ceteareth-20 (coconut derived), vegetable glycerin, helianthus seed oil, vitamin E, silk protein, vitamin B, sorbic acid (fruit derived), lecithin, coconut oil, organic jojoba oil, shea butter, essential oil blend of lavender and rosemary, methyl parahydroxybenzoate (food grade preservative).

Nit Oil Treatment

This specially formulated blend will help control infestation of head lice and aid in removing eggs from your child's hair.

NIT OIL INGREDIENTS

sweet almond oil, essential oil blend of rosemary, lavender, eucalyptus and geranium.

Helpful Hints

- Remember that nits like clean hair so don't wash your child's hair everyday.
- Most important thing to remember is to remove all eggs from the hair as they will re-hatch
- Remember to wash all linen as nits can live off loose hair for up to 12 hours.
