

# DELIGHTFULLY NATURAL NATURAL & ORGANIC

## Delightfully Natural Body Range

Our skin being the biggest organ of the human body, we have to remember that what we put on the skin absorbs directly into the bloodstream making our organ work even harder than it needs to get rid of the unnecessary chemicals, which can also speed up the ageing process.

Many chemicals are used in commercial skincare products which do not contain any beneficial nutrients and in some cases irritate the skin. Nature provides us with all the essential vitamins and minerals to promote healthy, glowing skin.

Feeding your skin is just as important as feeding your body. Delightfully Natural body products were formulated to help deliver anti-oxidants, vitamins, minerals and enzymes to hydrate, nourish and protect the skin against cellular damage.

body range

## salt scrub

This salt scrub is designed to remove dead skin, helping to restore your skins healthy glow. The salt acts as exfoliate and the oil moisturizes, so your skin is left feeling silky smooth.
